AESOP allows your school district to automate both the posting of absences by staff and the filling of those absences by subs employed by your district. Automation ends up saving your district time and money, freeing your administrators and support staff to handle other pressing issues.

Whether your district is large or small, urban or rural, we believe AESOP can be a benefit to your corporation. Current users agree:

“AESOP has been a homerun for our district. Our daily absence fill rate has increased to 98.8% and the system is essentially paying for itself in cost reductions.”

John Layton, Ph.D., Assistant Superintendent
Lafayette School Corporation

“AESOP has been very user friendly from day one. AESOP has streamlined our substitute calling procedure. Administrators have indicated that they would not want to go back to the old way of calling substitutes. “

Dr. James Hanna, Superintendent
Rossville Consolidated School District

“The Aesop system has saved us hundreds of hours of time locating substitute teachers. Although the “human touch” is good, secretaries, principals or an extra employee doing what this system can do just does not make sense for us. We at Peru have been very pleased with the Aesop sub calling system.”

Dr. David Thompson, Assistant Superintendent
Peru Community Schools

“We have been extremely pleased with Aesop as our sub finder program. Not only is the program easy to use for both the teacher and the substitute, we have found the reporting features extremely helpful and the support outstanding.”

Susan E. H. DeLong, Ph.D., Assistant Superintendent
Tippecanoe School Corporation

For AESOP Demo or further
