3/2/2021	<p><b><u><a href="#">HOBART: Expanding Your Math Toolbox (5-9) - Virtual</a></u></b></p> <p>Mathematics is traditionally thought of as a 'sit-and-get' pedagogy where the students take notes while the teacher does all the talking. But it doesn't have to be that way. It's time to break the status quo and give students more learning options in mathematics! Teachers that attend will engage in new mathematics tools they can add to their math toolbox and use with students of all levels, high ability, EL, and inclusion. Attendees should be ready to create and discuss the fun we call 'Math!' This will be a virtual workshop and all school corporations are welcome. Please note that all times for this workshop will be Central Time.</p>	\$125
5/6/2021	<p><b><u><a href="#">*HOBART: Smekens - Best Practice Strategies for Teaching Vocabulary (K-12) - Virtual</a></u></b></p> <p>This strategy-rich workshop for teachers in grades K-12 is all about helping students improve comprehension by developing a deep understanding of core academic vocabulary. No more is vocabulary instruction about rote memorization. Now the emphasis is on providing students with multiple exposures to key terms so that they truly "own" content-area words. This workshop will unveil current research on teaching vocabulary while tying these findings to dozens of instructional strategies that are both practical and engaging. This will be a virtual workshop and all school corporations are welcome. Please note that all times for this workshop will be Central Time.</p>	\$125
